Salonika Campaign Bibliography of relevant books

This bibliography has been compiled for the Salonika Campaign Society by Keith Roberts with help from other members of the SCS and of The Great War Forum and is shared without charge for anyone interested in the campaign.

The intention has been to limit the bibliography to printed books published in English, with links where possible to e-book versions. Articles in, for example, regimental journals have so far not been included, and general histories with only a few relevant pages will normally be excluded. A few exceptions will have slipped in, where the item covers potentially significant subjects that are not covered elsewhere. Many of the wide range of official histories especially those recording specialised activities will contain references to this campaign and if there are substantial chapters worthy of addition we will be happy to add the information in future versions of the bibliography.

We have listed the first published editions of books about the campaign and we realise that quite a number of the titles have been reprinted over time. Later editions are not normally listed as these can be found by using established book search websites such as viaLibri.net.

ISBN numbers are generally quoted only where the first edition of a book had one.

Keeping the bibliography up to date, and adding the books that we have missed

If you can help by adding further relevant titles please email scsbiblio@gmail.com giving as much information as possible, or use the contact form on the SCS website. There will be occasional updates to the bibliography, when there are a few items to add, so please don’t expect an immediate update if, for example, you send us details of a single book.

If you share the bibliography with friends, please credit the Salonika Campaign Society and mention our website.

<td>The lighter Side of War</td>
<td>London : Hutchinson &amp; Co. Ltd</td>
<td>1934</td>
<td>9781910777299</td>
<td>From the author's introduction: &quot;It is a tale of the wide, open spaces rather than of trench warfare; of the lighter side rather than of the tragedy of blood and mud on the Western Front. It tells of the marching of mounted men—which may appeal to veterans of the Boer War; of the tramp of infantry through desert places. And of the manner of living in disease-stricken spots, such as the Monastir, the Struma, and the Vardar fronts in Macedonia. It describes the sports we indulged in; our hopes and fears, and our reactions generally to the tragic business we call war. I hope a little sympathy will be felt for, and a modicum of interest taken in the less highly placed persons I have endeavoured to describe, for it is the tommies, the N.C.O. and the junior officer who, in war, always get the worst of the deal, and seldom get either credit, or public recognition for what they have done&quot;.</td>

Originally intended as mounted Horse, the Yeoman, after initial training in Egypt, were flung into the furnace of Gallipoli as humble infantrymen. The fierce fighting reduced the unit to a strength of less than fifty. Back in Egypt, to their joy, the Yeomanry got their horses and patrolled the Suez Canal until they were despatched to the Salonika Front in northern Greece. Their final Great War campaign was Allenby's successful thrust across the Sinai into Palestine and Syria, and the Yeomanry's battle honours included Gaza, Philistia, Judea, Jerusalem, the Jordan, Megiddo and Damascus.</td>

Napier, M. D. | Lt. Colonel the Honourable Henry Bondes Napier C.M.G. | The experiences of a military attaché in the Balkans 1914-1915 | London: Oxford | 1924 | British diplomacy in the Great War was focussed on detaching Germany and Austria from their smaller allies in the Balkans, thus isolating the Central powers. They succeeded in bribing, persuading or coajuging Rumunia to join them in 1916 but the move proved disastrous when Rumunia was swiftly crushed and forced to conclude a humiliating peace. Bulgaria, by contrast, under its wily monarch ‘Foxy’ King Ferdinand proved steadfast in its support for Germany and Austria, despite its traditional ethnic and religious links to Russia. This book is an account by Britain’s military attaché in Bulgaria, Lt. Col. the Hon. M.D. Napier, of his efforts to coerce Bulgaria. It provides an interesting sidelight on the Great War and the Balkans in the early 20th century.

<td>Seen firstly describes his childhood before the First World War in a prosperous, losing Jewish family in Salonika. Under the Ottoman Empire, the city’s diverse communities - Jews, Muslim Turks, Orthodox Greeks and Bulgarians - met, traded and lived alongside each other day-to-day in an atmosphere of tolerance. Farewell to Salonica offers a fascinating insight into a lost society in which an older tradition of mutual respect was finally overcome by the pressures of nationalism and war.</td>

Salmon, Pierre | — | From the Western Front to Salonika: A French soldier writes home: letters of Pierre Subervie 1914-1919 | Nelson and Company | 2018 | 978 1911086183 | The letters home of Pierre Salmon are different in tone to most similar English language works, warm and vibrant, about his service on the Western Front, but also in often forgotten Salonika and with tanks. A 1914 volunteer, aged 17, as one of the few recruits capable of driving he served first a transport squadron in Flanders, then in a similar role Salonika until early 1917, before teaching tank driving and entering action in late 1918. On October 15th he was wounded, losing an eye, but gaining a Medal Militaire and the Croix de Guerre. In each of these postings he reveals much of interest in French soldier's view of war.
